

## Auto Seeder Roulette SSL

"Seeding in one touch!"

Visser wants to be the most innovative provider of smart solutions for excellent horticultural production. Our newest seeder is the latest step in improving your production.

This next step in seeding is 'menu controlled seeding'. Visser Horti Systems designed a new drum seeder which gives the grower the opportunity to pre-program the settings for their specific seed and or tray size.

### Pre-programming

The drum seeder, type Auto Seeder Roulette SSL is a fully automatic drum seeder with a high capacity of approximately 800-1000 trays per hour. All settings, per

Why choose the Auto Seeder Roulette SSL?

- ✓ High precision
- ✓ Easy change over
- ✓ High capacity

tray or seed type, are store in the computer. Including the amount of vacuum needed in the seeding drum, all settings are constantly monitored and controlled for optimum seeding results. The Siemens touch screen provides you with a very user friendly interface, in which almost every seeding setting can be programmed at site and no mechanical adjustments are needed. By using the touch screen display all settings can be programmed and saved by the operator. **You can get back to your latest settings in just one touch.** The number of programs that can be saved in the computer is unlimited by using an USB stick.

### Multi faceted

With a special drum that can be provided in this machine, even the most difficult seeds, such as Marigold (Tagettes), can be sown at a high accuracy of 99%.

"Seeding in one touch!"

## Options

- Driven dibbler drum with motorised brush.
- Seed dispenser. Used for large seeds. The seed dispenser will feed the seed hopper with seeds to keep a constant level of seed in the seed hopper which gives a better result.
- Extra seeding drum with different nozzle size or for a different tray size.
- Separation comb to avoid double seeds.

## Technical specifications

Dimensions L x W x H	3,000 x 1000 x 1,650 mm
Total KVA	2,5 KVA
Maximum tray size	600 x 400 mm
Maximum amount of cells	1014
Kind of seeds	Pelleted seeds and different naked seeds, nozzle sizes from 0.1 – 0.8mm
Capacity	Maximum capacity is 800 - 1000 trays/hour, but strongly depends on the type of seed and tray size.
