## Auto Seeder Granuplate

"Seeding pelleted seeds"

Visser now has the perfect solution for salad growers who want to produce their own young plants. The Auto Seeder Granuplate is very easy to use, can do easily different sizes of pelleted seeds and also has the ability to seed multi colour salad in 1 step. Even though with a job like this daily production is small, this Auto Seeder Granuplate helps to save time and make the process more efficient.

The seeder can be used as a stand-alone module or can also be used connected to a line with a tray filler and a covering unit. For bigger capacities, multiple seeding heads can be used on the same frame.

Suitable for round an pelleted seeds !

# Auto Seeder Granuplate

Seeding pelleted seeds

## Features

- Suitable for seeding 1-4 seeds per cell
- Vibrator mounted in the seeding head for optimum seeding result
- Second seeder at the bottom of the tube divider to avoid seeds bouncing out of the tray
