## Pot Filler Mayer TM 2432

"Now even for larger pots"

The TM 2432 is particularly impressive because of its wide range of applications. It can process pots/containers with diameters from 9 cm to, believe it or not, 32 cm. This new development is therefore of particular interest to the tree nursery sector.

The 14-piece turntable and the elevator are remotely controlled as usual. With the broad range of options from frequency-controlled drill motor to elevator and turntable stop to soil control on the elevator, the TM 2432 can extend its field of uses even further.

Why choose the TM 2432?

- ✓ For large pots and containers up to 32 cm
- ✓ Extremely flexible
- ✓ Perfect for tree nursery sector

### Perfect match with Visser transplanter

The Pot Filler Mayer TM 2432 perfectly matches the Visser PC-11/2 transplanter: potting and planting with high accuracy up to 3,000 plants/hour.

## Pot Filler Mayer TM 2432

"Now even for larger pots"

### Features

- Potting machine with a wide range of applications, specially suitable for tree nurseries.
- The original Mayer circular system for maximum ergonomics at work.
- Smooth movement of the turntable even at top production rates.
- Fast central adjustment of pot sizes by means of a ratchet (standard).
- 2-speed drill motor for drills up to Ø 19 cm (standard).
- Frequency-controlled drill motor (optional).
- Soil hopper with large filling volume (optional).
- Segmented soil chute for exact dosage of additional soil on turntable.
- Electronic precision control of machine output by means of a frequency converter for elevator and turntable drive.
- Perfectly centered planting holes for top plant quality.
- Turntable stop, adjustable elevator to handle slower bare root potting (optional).
- Great range of pot sizes and types can be used (round and square pots, pots for roses).
- Can be used with standard, special and container drills.
- Flexible arrangement of the conveyor belt for adaptation to different working environments.
- Compatible with all popular automation and transplanting systems.
- High safety standard (e.g. 3 emergency OFF switches).

### Technical specifications

Pot size	9 to 32 cm Ø (depending on type of pot)
Output	up to 3,000 pots/h
Output (with Visser PC-11/2 transplanter)	up to 3,000 pots/h
Soil hopper	1,500 litres
extended	2,200 litres / 3,000 litres / 5,000 litres
Transport dimensions	approx. 4.60 x 2.20 x 2.30 m
Weight	approx. 1,700 kg
Accessories	Rotating brush, fertilizer dispenser, pot dispenser with storage belt, double stack pot dispenser, soil hopper chute, stainless steel chains, special tyres, additional frequency converters, soil control on the elevator, etc.
